

L'EFECTE VOLADOR white 2020

Grenache Blanche

L'Efecte Volador Blanc is the first wine to go on the market and the first to sell out. It is a privilege to have it in our range because it is **highly expected** by all and is enjoyed by many palates. It's our "**nouveau**."

It appears in 2014 for the first time and becomes an **essential**, because white grape varieties are scarce in Priorat and **Grenache Blanche** that we have we care of it as a **treasure**.

Part of the vines we have planted in the area of Marçà are destined for the l'Efecte Volador Blanc. Specifically, **small** vineyards that are between 16 and 21 years old that grow on **soils of "Panal"**, which are **clayey-calcareous** soils very typical and characteristic of **Montsant**, and in **calcareous** soils with high content of decomposed **granite** and **sand**. This variety of soils poor in organic matter, together with the fairly dry climatic conditions and the work we do in the vineyard manually, allow the Grenache Blanche to express itself in the its best possible way.

Following the principles of **organic viticulture**, which means that no chemicals-synthetics are used in the vineyard. And in the winery we let the grapes **express** themselves in their own way to maintain their **essence** purer and more faithful to its terroir.

This 2020 vintage, the wine is **100% Grenache Blanche**.

Cool, friendly and versatile character.

As a whole it responds to the typical characteristics of the Grenache Blanche of the Mediterranean.

Some unripe fruit as apricot and pear. Citrus and other herbal hints.

Aromas of white rose and some more minerals.

Enveloping texture, austere complexity and a slightly bitter finishing touch is what makes it pair with a rich and varied gastronomy.

That's Grenache Blanche.
