

UNA NIT EN GLOBUS white 2020

Chardonnay / Grenache Blanche

Una Nit in Globus white is a **modern** and **fresh** wine, and in a certain way, with a differentiating point from the other white wines of the winery. It appears in our lives in 2017, when we acquired clay amphoras that allow us to enjoy new ways of making.

Although we continue to bet on **Garnacha Blanca**, the most traditional of the varieties in this area, in this case we also work with **Chardonnay**. Both varieties complement each other perfectly and offer us a **fine, voluptuous** and **well balanced** wine.

The Chardonnay variety comes from the municipality of Falset, from a vineyard about 27 years old planted at 375 m above sea level. After a very gentle pressing, it ferments in a 450 litre capacity clay amphora. And it will remain there about six months in contact with its **finest lees**, which will give it **elegance** and **silky texture**.

The **Garnatxa Blanca**, which comes from Marçà municipality, it is planted in a clay-calcareous soil and with a high component of minerals and sand. It ferments in an Austrian oak **foudre**. In this case, it has an **oval** shape and it is 2,000-liter capacity. Once fermented, it also remains for six months, and thanks to its oval shape, the finest lees are in constant movement, giving to the wine **structure** and **volume**.

Once the two varieties have been blended, the result is a **modern, unique** and **well-structured** wine.

In the winery, we always accompany the grape in its transformation, almost **without any intervention**. In this way we preserve the features of each grape variety, which are what define the style of this wine. We make an exhaustive selection before fermentation process to ensure that only the healthiest grape will be the one that is vinified.

All the works in the vineyard are **manual** and we **do not use any chemical-synthetic product**. Following the principles of **organic** and **biodynamic** viticulture, we guarantee the biodiversity of the area, the **sustainability** of the vineyard and the **essence** of its origin.

Our challenge, to maintain the essence of the field. Only in this way can we offer unique wines that reflect their own **vintage** and **origin**.

Modern, mineral and voluptuouse in character.

It is a clear, clean and well defined wine.

It offers aromas of fruits such as peach and apricot somewhat green, light herbaceous touches, wild aromas and minerality.

All together it is a light-bodied wine, fresh and expressive. Very smooth and well defined.
